

SOUTH WALES POLICE YOUTH TRUST

South Wales Police Youth Trust grants have supported a wide range of projects including cookery, sports sessions, youth clubs, DJ lessons, poetry workshops, the construction of a skate park and residential trips during the holidays.

Project Spotlight – The Gellideg Foundation Group - Gellideg, Trefechan and Twyncarmel Youth

The grant has been used to support the ongoing work of the youth team at the Gellideg Foundation Group, by enabling them to support young people who are most vulnerable to antisocial behaviour to take part in excursions, opportunities, trips, residentials, and workshops.

The foundation received £6,000 in funding which has allowed for the young people in the community to visit new places and have life inspiring experiences that would otherwise not be available to them. The project aims to help young people make more positive life choices, forge better relationships and have improved mental and physical wellbeing.

During these activities, the youth team discuss issues with the young people and address their concerns. The youth team invite PCSOs to the setting to discuss these issues in more detail with the young people, with the aim that together we can build a safer, stronger, cohesive community.
